The 7-Flow Revenue Checklist

Score your Klaviyo account in 15 minutes. Seven flows, three checks each. Every unticked box is revenue your list could already be making.

How to use it: open Klaviyo's Flows tab beside this sheet. Tick a box only if it's true today. A flow sitting in draft doesn't count.

1 Welcome series

The first impression for every new subscriber.

- [ ] Live, and triggered when someone joins your signup list
- [ ] Three or more emails over the first week, not just a discount code
- [ ] Buyers exit or move to a different path, using a Placed Order filter or split

2 Abandoned checkout

People who reached checkout and left.

- [ ] Live, triggered by Started Checkout, and stops once they order
- [ ] Two or three emails spread over two to three days
- [ ] Each email handles a different reason for leaving: timing, doubt or price

3 Abandoned cart

Added to cart, never reached checkout.

- [ ] Live, triggered by Added to Cart, and that event is tracking in your account
- [ ] Excludes anyone who started checkout, so nobody gets two reminders
- [ ] Shows the exact product they added

4 Browse abandonment

Viewed a product, didn't add it.

- [ ] Live, triggered by Viewed Product
- [ ] Excludes recent buyers and anyone already in a cart or checkout flow
- [ ] Shows the product they viewed, with a reason to come back, like reviews

5 Post-purchase

The order that pays for the first one.

- [ ] Separate paths for first-time and repeat customers
- [ ] A how-to-use or what-to-expect email around delivery
- [ ] A reorder or cross-sell email timed to how long the product lasts

6 Win-back

Customers who stopped buying.

- [ ] Triggered by time since last order, matched to your normal repurchase gap
- [ ] Leads with news or a reason to return before any bigger discount
- [ ] Exits as soon as they place an order

7 Sunset

Keeping your list healthy so emails reach the inbox.

- [ ] Finds subscribers who haven't clicked or ordered in a set period, such as 120 days
- [ ] Sends a last-chance email before suppressing them
- [ ] Campaigns go to engaged segments, not your whole list

Your score ____ / 21

What your score means

18–21	**Strong foundation.** Next gains come from testing subject lines, timing and offers.
11–17	**Core in place, gaps showing.** The unticked boxes are your quickest wins.
0–10	**Revenue is leaking.** Start with the order below.

The order we'd fix them in

1. Abandoned checkout 2. Welcome series 3. Post-purchase 4. Abandoned cart
5. Browse abandonment 6. Win-back 7. Sunset

Start where buying intent is highest, then work outward.

Want us to score it for you?
